- **Founder of Wharton Interactive:** Pioneers education through AI-driven simulations and games.
- **Popular Speaker and Advisor:** Shares insights on AI with a large following, advising startups and global organizations.

## Biography

With the explosive disruption that artificial intelligence has unleashed, Ethan Mollick has emerged as a thought leader at the forefront of the AI revolution. Ever-curious, Ethan sparks excitement and inspires audiences as he delves into the limitless possibilities of AI. With enthusiasm and an optimistic outlook, Mollick advocates embracing AI while acknowledging the associated risks and consequences. Rather than questioning its use, he challenges that we're already past the point of no return in how AI has transformed our lives – and it's now up to us to explore how we can purposefully harness AI's power.

Ethan is an Associate Professor at the Wharton School, where he studies

### From Disruption to Opportunity: Embracing the AI Revolution

In this thought-provoking speech, join Wharton Professor Ethan Mollick as he dives into the highly discussed, transformative realm of AI. Discover how AI, including chatbot technologies like ChatGPT, has disrupted our work and our entire way of life, leaving an indelible mark akin to the Covid pandemic. Rather than fight the current we're already in, Ethan shifts the conversation towards a more pivotal question: How can we thoughtfully and consciously embrace AI to propel innovation and shape our future?

With dynamic and interactive elements integrated into his speech, Ethan sparks curiosity. He takes audiences on an exploration of the boundless opportunities and incredible possibilities in this era of AI revolution.

**Available:** In person, Virtually

## Testimonials

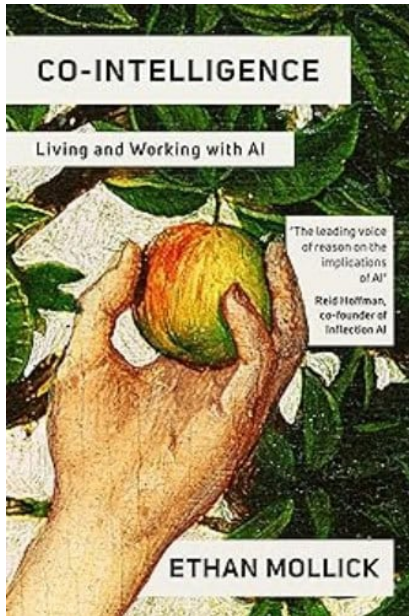

“

Ethan Mollick's compelling keynote. From disruption to opportunity: embracing the AI revolution, engaged over 400 members of our university community. This simultaneously disequilibrating and reassuring conversation provided an inviting gateway to our immersive week of virtual workshops exploring the pedagogical possibilities of Generative AI in our teaching and learning context. There has been a prolific outpouring of commentary on the impact of Generative AI on the higher education landscape. Mollick's thought-provoking pieces have stood out for the clarity with which he translates rapidly shifting technology, and for his ability to move us beyond collective panic by sparking our scholarly curiosity and guiding us with productive ways to navigate this latest disruption. The members of our planning team appreciated his spirit of generosity in sharing resources we could disseminate, the breadth and richness of his illustrations, and we were impressed by how adept he was with live demos. As Mollick says in the tagline of his widely circulated piece, "The homework apocalypse," Fall is going to be very different this year. Educators

need to be ready.

### Co-Intelligence: Living and Working with AI

Consumer AI has arrived. And with it, inescapable upheaval as we grapple with what it means for our jobs, lives and the future of humanity. Cutting through the noise of AI evangelists and AI doom-mongers, Wharton professor Ethan Mollick has become one of the most prominent and provocative explainers of AI, focusing on the practical aspects of how these new tools for thought can transform our world. In Co-Intelligence, he urges us to engage with AI as co-worker, co-teacher and coach. Wide ranging, hugely thought-provoking and optimistic, Co-Intelligence reveals the promise and power of this new era.
